

Important note

After accepting the peer review invitation, reviewers complete the online review form made available in the OJS interface. This PDF serves only as a sample of the questions and is used only if the online OJS review form is unavailable or cannot be submitted.

Please evaluate the paper according to the following criteria. Your evaluation and suggestions for modification will be sent anonymously to the author of the paper. Mandatory fields are marked with an asterisk.

1. Originality*

Does the paper present new and original findings based on independent research?

Yes No Partially

If not, or partially: what changes or additions would you suggest?

2. Objectives*

Are the objectives of the paper clearly defined and are the conclusions appropriate?

Yes No Partially

If not, or partially: what changes or additions would you suggest?

3. Structure*

Is the paper well structured?

Yes No Partially

If not, or partially: what changes or additions would you suggest?

4. Argumentation*

Does the argumentation of the paper meet the standards of academic rigour?

Yes No Partially

If not, or partially: what changes or additions would you suggest?

5. Content*

Should any parts of the paper be clarified or omitted?

Yes No Partially

If yes, or partially: what changes or additions would you suggest?

6. Methodology*

Are the methods used appropriate to the aims of the research?

Yes No Partially

If no, or partially: what changes or additions would you suggest?

7. Abstract and keywords*

Do the abstract and the keywords accurately summarise the paper?

Yes No Partially

If no, or partially: what changes or additions would you suggest?

8. Language and grammar*

Is the vocabulary and terminology used in the study accurate, the language easy to understand, and the text free of spelling and writing errors?

Yes No Partially

If no, or partially: what changes or additions would you suggest?

9. References*

Did the author properly cite references relevant to the study?

Yes No Partially

If no, or partially: what changes or additions would you suggest?

10. Final recommendation*

What is your final publication recommendation?

Accept without revision Accept after minor revisions

Revise and resubmit after major revisions Reject

Please specify any changes or additions required for the recommendation selected above.
